EPG Companies Inc. specializes in the manufacture of **landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware and SCADA systems, Odor & Gas Control**, and other environmental and industrial products.

Dear Mike,

EPG manufactures proven pumps & controls and has the experience and knowledge to help guide you from design phase to quote process and beyond.

Support is always just a phone call away and our nationwide network of sales representatives and **landfill service providers** strengthens our ability to support the needs and challenges of industry professionals coast to coast and around the world.

If you have a challenging situation on your hands, let an EPG Applications Specialist guide you to a solution that's right for you.

EPG will be attending several events this year. We will update the **schedule** below each month.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

WASTECON 2013

EPG is sponsoring and exhibiting at SWANA's 2013 WASTECON in Long Beach, CA, September 17-19.

EPG Applications Specialists will be on-hand to answer questions about our pumps & controls, accessories, biogas flares, and odor & gas control. EPG Companies Inc. will be located in booth 931 next to the Wastecon Break Zone. Stop and say hello!

Visit the **WASTECON** website to learn more.

All Pumps Are Not Created Equal ...

EPG's patented SurePump Wheeled Sump Drainers provide superior performance and accurate liquid level reading for horizontal side slope riser applications.

The SurePump is completely sealed, built of stainless steel for harsh environments and, unlike competitor models, draws liquid over or past the motor to maximize cooling and extend the life of the pump.

Models are available in a wide range of flow rates, discharge heads, and motor voltages.

The SurePump™ is suitable for sideslope riser, well, and sump applications.

The SurePump is suitable for many applications

Controls

The latest addition to EPG's L900 line of controllers is the YCL Series Pump Controller, a full featured solution for landfill leachate management.

These controllers use a single Operator Control Station (OCS), capable of multiple functions in a cost effective and familiar design.

Operator friendly screens are easily accessible for display of run time, number of starts, and alarms.

Features include:

- Level start/stop set points.
- High and low level set points (for alarm).
- High-high and low-low preset points as fail-safe pump shut-off.
- Flow rate, totalizer and cycle counter.
- EPG control panels are UL listed 508A/698A.
- EPG control panels include SCCR labels.

Call 1-800-443-7426 or email us at info1@epgco.com for more information.

Accessories

EPG offers a complete line of accessories to compliment new and existing landfill pumps & controls systems.

[Breakout Junction Boxes](#)

[Disconnect Adapters](#)
