EPG Companies Inc. specializes in the manufacture of **landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware** and **SCADA** systems and other environmental and industrial products.

Dear Mike,

Finding a source for landfill and environmental equipment that you can depend on for the life of your application is important. Finding a manufacturer with whom you can rely upon for service and support is just as important.

EPG manufactures proven pumps & controls and has the experience and knowledge to help guide you from design phase to quote process and beyond. Support is always just a phone call away and our staff is trained to listen, ask the right questions, and offer a solution. We hope you consider EPG Companies Inc. to be that source!

If you have a challenging situation on your hands, let an EPG Applications Specialist guide you to a solution that's right for you.

Give them a call at **1-800-443-7426** or email them at info1@epgco.com.

EPG will be attending several events this year. See the [schedule](#) below. We will update the schedule each month.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

Product Highlight - Complete Pumps & Controls Packages

The combination of the EPG SurePump™, LevelMaster™ controller, and specially designed accessories are best-in-class among similar offerings within the landfill industry.

The SurePump™ provides superior performance for both horizontal side slope riser and vertical sump applications. Both models are available in a wide range of flow rates, discharge heads and motor voltages.

EPG designs pump models to handle large diameter sumps & manholes, open bodies of water, suspended solids, high temperature liquids, and gas pressure or vacuum.

Features include:

- Stainless Steel construction.
- Corrosion resistance.
- E-Glide™ bearings and seals for unmatched durability over water well pumps often used in competitor products.
- Utilize suitable Franklin Electric motors.
- Functions as a sealed unit, drawing liquid past motor for superior cooling.
- Vent valve system to prevent pump air lock.
- Available with flow rates from 2 - 1,200 GPM.
- Available slotted screens to handle special applications.

Vertical Sump Drainer

Wheeled Sump Drainer

Joining EPG's L900 line of controllers is the YCL Series Pump Controller, a full featured solution for landfill leachate management.

These controllers use a single Operator Control Station (OCS), capable of multiple functions in a cost effective and familiar design.

Operator friendly screens are easily accessible for display of run time, number of starts, and alarms.

Features include:

- Level start/stop set points.
- High and low level set points (for alarm).
- High-high and low-low preset points as fail-safe pump shut-off.
- Flow rate, totalizer and cycle counter.
- EPG control panels are UL listed 508A/698A.
- EPG control panels include SCCR labels.

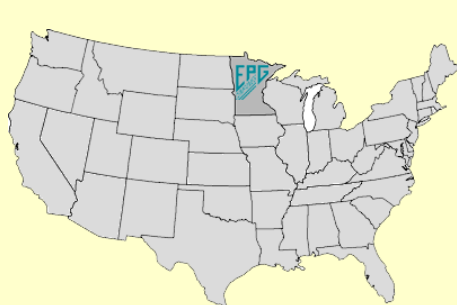

YCL Series Controller & OCS
