Dear Mike,

While EPG is well known for our patented SurePump Wheeled Sump Drainers, we have extensive experience designing a full range of environmental equipment.

This includes landfill & biogas flares, custom control panels, pneumatic environmental pumps, air strippers, vapor extractors, condensate filter separators, air sparging packages, oil & water separators, and complete trailer mounted remediation systems.

See below to find out more about EPG's LFG solutions and environmental pump choices.

Note: EPG will be exhibiting at Wastecon and participating in the Product Showcase.

EPG attends several events each calendar year. We will update the **schedule** below in each newsletter. Hope to see you at the next event!

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.
www.epgco.com

Product lines available from EPG Companies Inc.

EPG Companies Inc. specializes in the design and manufacture of landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware and SCADA systems, Odor & Gas Control, and other environmental and industrial products.

Flares for Odor Control & Fugitive Gas

LTL Biogas Flares

LTL Biogas Flares are widely used for odor and emission control when vacuum assist is required, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells.

These units are ruggedly constructed for long life and feature solar-powered continuous ignition with very low maintenance requirements. Skid and trailer mounting options are available to adapt to any situation.

Standard Flare Features:

- Easy Assembly and Maintenance with Rotating Column Design
- Solar or Line Powered Electronic Ignition - LPG Flame Pilot Also Available
- 5-750 SCFM Biogas Combustion Capacities
- Excellent Combustion Efficiency
- High Temperature Thermocouple with Programmable Data Logger
- Low Pressure, Easy Cleaning Flame Arrester Constructed with Aluminum Body and 304 Stainless Steel Internals
- Carbon Steel Riser Pipe
- Skid Mounted; Easily Portable
- Complies with 40 CFR 60.18
- Easy and Safe to Maintain!

Solar Spark® Passive Vent Flares

Solar Spark® Vent Flares are widely used for odor and emission control at passive outlets, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells. Solar Spark® Vent Flares are typically used on landfill gas vents, wells, or leachate system cleanout lines to combust flammable gases. Solar Spark® Vent Flares combust flammable gases at low ambient pressure without the need for blowers or external power.

Standard Features Include:

- All Weather Stainless Steel Spark-Pilot
- Solar-Powered Continuous Ignition System, 6-Volt Or 12-Volt
- Stainless Steel Ball Valve
- Inline Flame Arrester
- 2-90 SCFM or 5-140 SCFM Flow Rates

Other Uses:

- Dairy and Animal Feeding Facilities
- Wastewater Treatment Plants
- Biogas Facilities
- Petroleum or Natural Gas Production and Transmission

EPG - Your Environmental Pump Source

Viridian America Environmental Pumps

Viridian America's line of pneumatic pumps are the choice of many landfill managers and operators for vertical pumping applications. Their rugged, corrosion resistant design is ideal for pumping highly corrosive leachate even at elevated temperatures. In addition, they are fully automatic, self-regulating and require no external form of control. The Viridian America pneumatic pump is the most durable pneumatic pump available on the market today.

Typical applications include:

- Vertical extraction wells
- Landfill gas extraction wells
- Condensate sumps
- Recovery wells at remediation sites

ATZ Electric & Solar Leachate Pumps

The rugged ATZ pneumatic top-drive piston pump is designed to pump almost any fluid, under the most difficult operating conditions, while eliminating the need for down-well pneumatic lines or electric motors. The design incorporates an optimal blend of power, reliability and efficiency in a cost-competitive, innovative and easy to operate piston pump.

2015 WASTECON® Conference August 24-27, 2015

SWANA's 53rd Annual WASTECON® conference will take place in Orlando, Florida, from August 24-27, 2015.

WASTECON® is the premier solid waste industry-focused conference that brings you the latest news, education, advancements and products to help you achieve success in your business, all in one setting.

On Tuesday, August 25th at 10:15 a.m. EPG will take part in the **Product Showcases & Demonstrations** portion of the event. Hope to see you there.

You can visit EPG at booth #1019 and ask us about our complete product line including electric and pneumatic pumps, controls, accessories, flares, remediation, and more.

You'll find the Viridian America booth right next door at #1118 featuring the VP Series of pneumatic pumps, well seals, and more.

Visit the [WASTECON website](#) to learn more.

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

Aug **SWANA 2015 WASTECON**
24-27 Orlando, FL (EPG and Viridian America Exhibiting on Show Floor)
*On Tuesday at 10:15AM EPG participates in the Product Showcase
