EPG Companies Inc. specializes in the design and manufacture of **landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware and SCADA systems, Odor & Gas Control**, and other environmental and industrial products.

Dear Mike,

Through continuous in-house engineering and decades of experience, EPG has never stopped improving our electric pumps & controls.

The same can be said for the VP Series of pneumatic pumps available from Viridian America. Innovations in design and materials means the VP line-up of environmental pumps are now lighter and more resilient while still being competitively priced. If you're in the market for new or replacement environmental pumps, give us a call at 1-800-443-7426!

Details about the Viridian America pumps can be found below along with new down-loadable bulletins and data sheets.

www.viridianamerica.com

EPG attends several events each calendar year. We will update the **schedule** below in each newsletter. Hope to see you at the next event!

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

Viridian America Environmental Pneumatic Pumps

Viridian America's line of pneumatic pumps are the choice of many landfill managers and operators for vertical pumping applications. Their rugged, corrosion resistant design is ideal for pumping highly corrosive leachate even at elevated temperatures. In addition, they are fully automatic, self-regulating and require no external form of control. The Viridian America pneumatic pump is the most durable pneumatic pump available on the market today.

Typical applications include:

- Vertical extraction wells.
- Landfill gas extraction wells.
- Condensate sumps.
- Recovery wells at remediation sites.

Capabilities & Options:

- Bottom or top inlet configurations.
- Sizes to accommodate 4" and 3.5" inside pipe diameters.
- Manufactured with 316 SS components.
- Engineered plastic BCV is standard (316 SS available).
- Standard ultra-durable epoxy resin fiber-glass casing (316 SS available).
- Quick and easy disassembly for routine cleaning and maintenance.
