### EPG Solutions

#### Discharge Adapters, AKA Disconnect/ Pitless Adapters

EPG's Pump Discharge Disconnect Adapters are designed for leachate, monitoring, and remediation piping applications. The "NW" Series disconnect adapters fasten securely through a riser or sump wall.

Now personnel can easily and safely make or break pump discharge connections without entering hazardous locations.

#### "NW" Series Disconnect Adapter Features

- Solid 316 or 304 Stainless Steel construction
- Tapered slide fittings and O-ring seals for liquid-tight slip joint sealing
- Designed for maximum service life and ease of maintenance
- Built in 90° elbow with blind top to accept threaded pipe to facilitate easy removal
- EPDM gaskets, washer and lock nut to make a gas tight seal on sump wall
- Extended length discharge allows adapter to fit through 0.25" to 4" wall thickness
- 1.5", 2", 3", 4", and 6" NPT sized fittings for pump, lift-out, and discharge pipes

Why put your pumping system operation at risk relying on imitators or poorly welded makeshift designs?

You can depend on genuine EPG adapters to perform worry-free, for years and years.

Through continued R & D and testing, EPG is able to bring improved guide rail system designs to market. Innovative features such as adjustable and pivoting brackets allow a tailored fit for each and every application challenge our customers face.

EPG can even help you design a guide rail system for other styles and types pumps as well!
