

Trailer Mounted Leachate Pumping System

- ◆ Portable pumping system complete with power generator
- ◆ Specially designed for sites with low leachate production
- ◆ Eliminates the need for multiple dedicated pumping systems
- ◆ Baffled storage tank assures smooth ride (even with partial loads)
- ◆ Four point leveling system maintains stable work platform
- ◆ Equipped with state-of-the-art electronic level control
- ◆ Designed for automatic pumping operations with low level and tank overflow protection
- ◆ Separate reels for hose and leads
- ◆ Available to meet a variety of flow and head requirements
