

Cam Couplers

EPG Cam Couplers are quick disconnects that are used to easily connect and disconnect pipe or hose.

USES

- Pump discharge lines
- Flow sensor adapters (flow spools, see Section 6)
- Pipe or hose runs that are often reconnected or moved
- Truck loadout lines

FEATURES

- Lightweight
- Chemical resistant to most acids
- All couplers feature stainless steel handles and pins
- Interchangeable with other couplers and adapters

AVAILABILITY

- Nylon
- Polypropylene
- Polyethylene
- 316 Stainless Steel
