EPG Companies Inc. specializes in the manufacture of **landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware** and **SCADA** systems and other environmental and industrial products.

Dear Mike,

EPG Companies Inc. proudly announces the addition of Dick Miller and Chris Riddle to our sales staff at our headquarters in Minnesota.

For 30 years, Dick Miller has been actively involved in the construction industry in both sales and sales management capacities. His experience working with engineers to specify custom products, along with his understanding of critical details most important to those involved, means EPG is even better equipped to respond to customer needs. Dick is highly motivated to improve all aspects of the Supplier / Client relationship and is charged with identifying and building strong partnerships in order for EPG Companies Inc. to continue providing top line products and customer service.

Chris brings 23 years of experience in the environmental industry. His various roles, from project engineer and project manager, to field service, installation, start-up supervision and training make him a valuable asset to our Applications Specialists team and strengthens EPG's ability to provide our customers with custom solutions for each challenging application they face.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

Diamond Systems, LLC 321-223-7500
(FL, AL, PR)

Pumps Plus, Inc. 248-888-9004
(Lower MI)

Environmental Site Solutions, LLC 503-539-8835
(WA, OR, HI)

Education & Training - EPG Service School

Reminder!

EPG's Service School is scheduled for March 12-14 for the Pumps & Controls class and March 14-16 for the Advanced class. Register today to reserve your spot!

For 15 years, EPG has served over 500 attendees in a small group setting. Our education and training classes are applicable for all who are involved with the design, maintenance, and/or installation of Liquid or Gas Handling Systems, Remediation Systems and/or SCADA and Data Acquisition Systems.

Classes are suitable for the following:

- Design Engineers
- Landfill Operators
- 3rd Party Service
- Landfill Managers
- Installation Contractors
- Maintenance Personnel
- Owner Operators

Topics include:

Use of Test Meters
Motor & Electricity Basics
Level & Flow Meters
Pump Basics
Pump Controllers
Control Panels
Installation & Start-Up
Operations & Maintenance
Grounding
Safety Issues
Telemetry

Our schools include classroom discussion, presentations, hands-on training, networking opportunities, meals, lodging, applicable test equipment, instruction manuals and SWANA CEUs. [Click here](#) to download registration forms.

* Receive up to 10 Continuing Education Units through SWANA (Solid Waste Association of North America)
