VP Series Pumps from Viridian America

Viridian America's line of pneumatic pumps are the choice of many landfill managers and operators for low flow, vertical pumping applications. It's rugged, corrosion resistant design is ideal for pumping highly corrosive leachate at elevated temperatures. With it's all 316 stainless steel mechanical components, PEEK rocker arm assembly, Syntactic high performance float, and epoxy resin outer casing, the Viridian America pneumatic pump is the most durable pneumatic pump available on the market today.

Typical applications include:

- Low flow vertical extraction wells
- Landfill gas extraction wells
- Condensate sumps
- Recovery wells at remediation sites
