Greetings!

EPG's Service School is scheduled for March 11-13 for the Pumps & Controls class and March 13-15 for the Advanced class.

These classes are suitable for Landfill Technicians, Design Engineers, Landfill Operators, 3rd Party Service, Landfill Managers, Installation Contractors, Maintenance Personnel and Owner Operators.

Openings still remain for both classes but are filling up quickly. Download registration forms [here](#).

Thanks to Todd MacGregor of [Eastern Reliability](#) and Joe Santangelo of [Lee Supply, Inc.](#) for their recent visit to the EPG offices. We're excited to have you represent EPG.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

Education & Training - EPG Service School

Reminder!

EPG's Service School is scheduled for March 11-13 for the Pumps & Controls class and March 13-15 for the Advanced class. Register today to reserve your spot!

For more than 15 years, EPG has served over 550 attendees in a small group setting. Our education and training classes are applicable for all who are involved with the design, maintenance, and/or installation of Liquid or Gas Handling Systems, Remediation Systems and/or SCADA and Data Acquisition Systems.

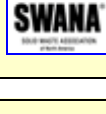

Classes are suitable for the following:

- Design Engineers
- Landfill Operators
- 3rd Party Service
- Landfill Managers
- Installation Contractors
- Maintenance Personnel
- Owner Operators

Topics include:
Use of Test Meters
Motor & Electricity Basics
Level & Flow Meters
Pump Basics
Control Panels
Installation & Start-Up
Operations & Maintenance
Grounding
Safety Issues
Telemetry

Our schools include classroom discussion, presentations, hands-on training, networking opportunities, meals, lodging, applicable test equipment, instruction manuals and SWANA CEUs. [Click here](#) to download registration forms.

* Receive up to 10 Continuing Education Units through SWANA (Solid Waste Association of North America)

Product Highlight - EPG Control Panels

Ask yourself these questions:

- How can I get control over every function of our landfill system?
- How do I know if it's running with optimum efficiency?
- How can I monitor, discover and troubleshoot costly interruptions?

When many are trying to answer these questions, EPG is succeeding with dependable accuracy. EPG's control panels are easy to learn, operate and service and are built to NEMA, UL, and NEC standards. They are familiar to 100's of landfill service people and operators and are the perfect choice for new landfill construction and expansion projects.

The **YCL Series** Pump Controller is EPG's newest, full featured solution for landfill leachate management.

These controllers use a single Operator Control Station (OCS), capable of multiple functions in a cost effective and familiar design.

Features include level start/stop set points, high and low level set points (for alarm), high-high and low-low preset points as fail-safe pump shut-off and flow rate and total.

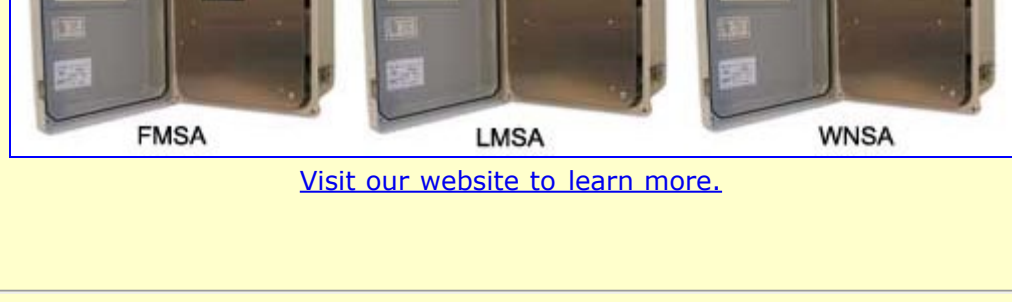

Operator friendly screens are easily accessible for display of run time, number of starts, and alarms.

[Download the YCL Control Panel Flyer](#)

EPG offers a complete line of individual Stand Alone Units as well. When you need occasional or continuous monitoring of liquid flow, sump or tank levels, EPG has the solution to help you understand, maintain and improve system conditions.

- *FlowMasterTM Stand Alone (FMSA)*
- *LevelMasterTM Stand Alone (LMSA)*
- *Tank Gauging System (WNSA)*

[Visit our website to learn more.](#)

The integration of leachate and gas condensate equipment, sensors, monitors and process controllers requires the knowledge of a professional with the experience and expertise to understand the overall operational requirements of even the most complex systems. Factors including site requirements, component characteristics, load demand and input/output informational parameters are carefully considered by EPG's seasoned application specialists.

Contact an EPG Applications Specialist at **1-800-443-7426** or info1@epgco.com for more information.

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

- 2/20-22 **WIRMC** - Wisconsin Dells, WI
- 2/26-28 **SWANA Landfill Symposium** - Atlanta, GA
- 3/18-21 **SWANA Landfill Gas Symposium** - Las Vegas, NV
- 3/20-22 **LSWA Environmental Conference** - Lafayette, LA
- 4/16-18 **MsSWANA Spring Conference** -Tunica, MS
- 5/5-8 **Federation of NY Solid Waste Assoc** - Lake George, NY

Solid Waste Association of North America

2013 EPG Service School March 2013 | Registration forms for the Basic and Advanced classes are available at www.epgco.com. Call us at 1-800-443-7426 with questions.
