EPG Companies Inc. specializes in the design and manufacture of **landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware** and **SCADA** systems, **Odor & Gas Control**, and other environmental and industrial products.

Reminder!

EPG's Service School is fast approaching (March 17-21). We have one spot available for the Pumps & Controls class but the Advanced Class is now full. We can put you on the waiting list for next year if interested.

Classes takes place at EPG's manufacturing headquarters in Maple Grove, MN and includes classroom discussion, presentations, hands-on training, networking opportunities, meals, lodging, applicable test equipment, instruction manuals and SWANA CEUs.

EPG will be attending several events over the next several months. We will update the **schedule** below in each newsletter.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

Education & Training - EPG Service School

For 17 years, EPG has served over 500 attendees in a small group setting. Our education and training classes are applicable for all who are involved with the design, maintenance, and/or installation of Liquid or Gas Handling Systems, Remediation Systems and/or SCADA and Data Acquisition Systems.

EPG's on-site classroom includes live control panels allowing students to get hands-on experience programming level and flow meters, component installation, and system troubleshooting. In addition, each student has the opportunity to tear down and rebuild an EPG SurePump, providing invaluable knowledge for use in the field. We believe EPG's Service School offers a unique learning environment, unmatched in our industry.

The following topics are covered in both comprehensive classroom and hands-on settings:

- Use of Test Meters
- Motor & Electricity Basics
- Level & Flow Meters
- Pump Basics
- Pump Controllers
- Control Panels
- Installation & Start-Up
- Operations & Maintenance
- Grounding
- Safety Issues
- Telemetry
- Arc Flash/SCCR/PPE
- Flare Maintenance
- Pneumatic Pumps

Pumps & Controls Class (One spot remaining)

March 17-19

Advanced Class (Now Full)

March 19-21

** Receive up to 10 Continuing Education Units through SWANA (Solid Waste Association of North America)*

EPG - Your Complete Landfill & Environmental Solution Source

Solar Spark® Vent Flares are widely used for odor and emission control at passive outlets, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells. Solar Spark® Vent Flares are typically used on landfill gas vents, wells, or leachate system clean-out lines to combust flammable gases.

Solar Spark® Vent Flares combust flammable gases at low ambient pressure without the need for blowers or external power.

For more info click [HERE](#).

LTL Biogas Flares are widely used for odor and emission control when vacuum assist is required, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells.

These units are ruggedly constructed for long life and feature solar-powered continuous ignition with very low maintenance requirements. Skid and trailer mounting options are available to adapt to any situation.

For more info click [HERE](#).

Viridian America's line of pneumatic pumps are the choice of many landfill managers and operators for vertical pumping applications. Their rugged, corrosion resistant design is ideal for pumping highly corrosive leachate even at elevated temperatures. In addition, they are fully automatic, self-regulating and require no external form of control. The Viridian America pneumatic pump is the most durable pneumatic pump available on the market today.

Typical applications include:

- Vertical extraction wells
- Landfill gas extraction wells
- Condensate sumps
- Recovery wells at remediation sites

For more info click [HERE](#).

Consult with an Applications Specialist at **1-800-443-7426** or email us at info1@epgco.com for more information about Flares, Odor Control & Fugitive Gas Solutions, and Pneumatic Pump Systems.

EPG Sales Reps - We've got you covered!

EPG has representation throughout the United States, Canada and Mexico. We encourage you to reach out to them for your next project in their respective areas. EPG Pumps & Controls have been installed globally, too!

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

March 17-21 **EPG Service School**
Maple Grove, MN

March 24-27 **SWANA Landfill Gas Symposium**
Monterey, CA (Exhibiting)

May 7-9 **SWANA Northern Lights Chapter**
Regina, Saskatchewan (Zirco Exhibiting)

May 18-21 **FNYSWA Spring Conference & Trade Show**
Bolton Landing, NY (Exhibiting)
