EPG Companies Inc. specializes in the manufacture of **landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware and SCADA systems, Odor & Gas Control**, and other environmental and industrial products.

Throughout the week attendees participated in classroom discussion, presentations, and hands-on training. We also enjoyed great food and socializing with everyone who participated. If you have interest in attending or know someone who might be next year please give us a call at **1-800-443-7426** and we will send you information on the 2015 class when it becomes available.

EPG and our partners attend several events each year. We will update the **schedule** below each month.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

2014 TxSWANA Annual Conference - April 6-9, 2014

EPG will be represented by **The Reich Co.** at the 2014 TxSWANA Annual Conference in Austin, TX. View their line card [here](#).

When it comes to leachate management, nobody understands the unique challenges faced by landfills in the Southwest like The Reich Company. They will be available at the TxSWANA show to share their expertise and first hand knowledge about EPG's submersible electric and pneumatic pumps, controls, accessories, flares, and more.

Visit the TxSWANA [website](#) to learn more.

SWANA Northern Lights Chapter - May 7-9, 2014

EPG will be represented by Zirco, Ltd. at the WASTE REFORUM Conference hosted by SWANA's Northern Lights Chapter and Saskatchewan Waste Reduction Council in Regina, Saskatchewan Canada.

Zirco staff will be on-hand to offer guidance and answer questions about your current and upcoming applications & installations as well as offer information about EPG's complete line of submersible electric and pneumatic pumps & controls, accessories, and biogas flare systems.

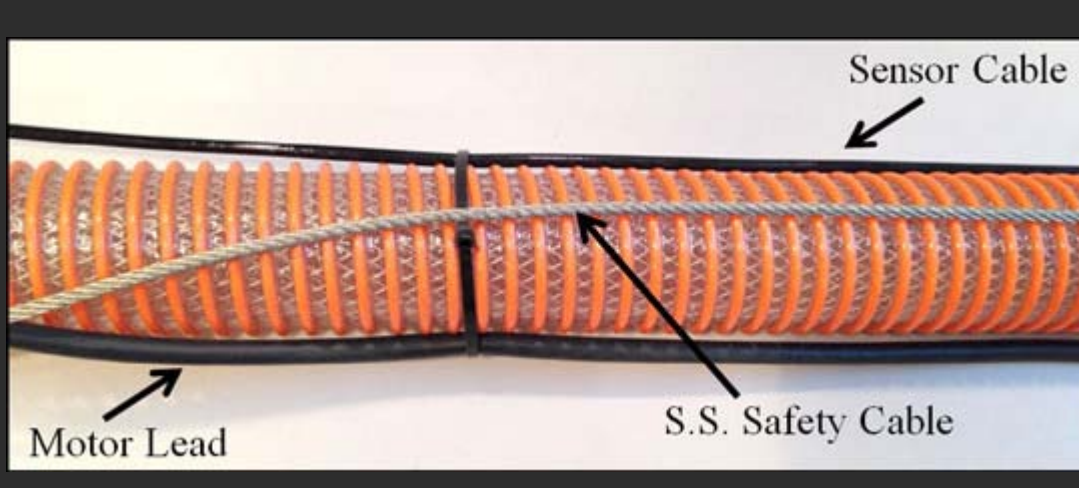

Visit SWANA's Northern Lights Chapter [website](#) to learn more.

EPG Quick Tip - Bundling Lead Wires with Discharge Hose

Over the years, EPG has determined and promoted many "best practices" based on trials, testing, and feedback from our customers. Here's one of many tips we hope to share with you in future newsletters.

Fasten motor and sensor leads to the pumps discharge line every 5' to 7' with straps or plastic wire ties on opposite sides of the discharge line and use padding between cables and any metal straps to protect the cable jacket. Doing so helps isolate the motor lead from the sensor lead which can be susceptible to noise and interference from the power supplied to the pump. This also helps prevent tangling and bunching up of the hose and lead wires during installation.

CAUTION: Do not fasten stainless steel safety cable as this will snap off straps or ties when pulling the pump out of the sump or riser.

Questions? Call EPG at **1-800-443-7426** for more information.

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

- April 2-4** **Alabama Chapter of SWANA**
Orange Beach, AL (Ray Rivera of Diamond Scientific Attending)
- April 6-9** **TxSWANA**
Austin, TX (The Reich Co. Exhibiting)
- May 6-7** **TCEQ Environmental Trade Fair and Conference**
Austin, TX (The Reich Co. Exhibiting)
- May 6-8** **Magnolia SWANA Chapter - 2014 SWANA Spring Conference**
Bay St. Louis, MS (The Reich Co. Exhibiting)
- May 7-9** **SWANA Northern Lights Chapter**
Regina, Saskatchewan (Zirco Exhibiting)
- May 18-21** **FNYSWA Spring Conference & Trade Show**
Bolton Landing, NY (EPG Exhibiting)
