EPG Companies Inc. specializes in the manufacture of **landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware** and **SCADA systems, Odor & Gas Control**, and other environmental and industrial products.

Dear Mike,

The Holiday Season is upon us and we'd like to take this opportunity to wish you a Happy Thanksgiving from all of us at EPG!

EPG's office will be closed on the following days:  
November 27th and 28th  
December 24th, 25th, and 26th  
January 1st and 2nd

Do you have a challenging situation on your hands? EPG Applications Specialists have the experience and knowledge to help guide you toward a solution that's right for you.

Support is always just a phone call away and our nationwide network of sales representatives and **landfill service providers** strengthens our ability to support industry professionals coast to coast and around the world.

EPG will be attending several events this year. We will update the **schedule** below each month.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at [info1@epgco.com](mailto:info1@epgco.com).

Sincerely,  
EPG Companies Inc.

## Pumps & Controls You Can Depend On

### Pumps

EPG's patented SurePump Wheeled Sump Drainers provide superior performance and accurate liquid level reading for horizontal side slope riser applications.

The SurePump is completely sealed, built of stainless steel for harsh environments and, unlike competitor models, draws liquid over or past the motor to maximize cooling and extend the life of the pump.

Models are available in a wide range of flow rates, discharge heads, and motor voltages.

The SurePump™ is suitable for sideslope riser, well, and sump applications.

The SurePump is suitable for many applications

### Controls

Uncompromised control . . . that's what you get with an EPG, UL & CUL/CSA listed control panel. Whether you need a simple controller or a custom integrated system, all EPG Control Panels are designed and built by electrical and process engineers; seasoned professionals who understand the overall operational requirements of even the most complex systems.

In addition to our custom designed panels, EPG manufactures a broad line of standard controllers that can be equipped with a vast array of options required to meet your specific application. Our OCS unit (pictured) offers level & flow monitoring and more in one device. Each EPG Control Panels is tested as a complete system and then delivered installation-ready, helping to reduce integration problems and start-up costs and providing years of maintenance-free process system control.

Features include:

- Level start/stop set points.
- High and low level set points (for alarm).
- High-high and low-low preset points as fail-safe pump shut-off.
- Flow rate, totalizer and cycle counters.
- EPG control panels are UL listed 508A/698A.
- EPG control panels include SCCR labels.

Call 1-800-443-7426 or email us at [info1@epgco.com](mailto:info1@epgco.com) for more information.

### Accessories

EPG offers a complete line of accessories to compliment new and existing landfill pumps & controls systems.

- Breakout Junction Boxes
- Disconnect Adapters
- Guide Rail Disconnects
- Float Switches
- Stand Alone Level Monitoring
- Stand Alone Flow Monitoring
- Heavy Duty Tank Seals
- Wireless Switches
- Level Meters & Flow Meters
- Control Valves
- Anti-Siphon & Air Release Valves
- Variable Frequency Drives (VFDs)
- Thermistors / Temperature Switches
- Leak Detection Sensors
- and More ...

Consult with an Applications Specialist at **1-800-443-7426** or email us at [info1@epgco.com](mailto:info1@epgco.com) for more information about the accessories and add-on products available.

## Education & Training - EPG Service School

For 18 years, EPG has served over 500 attendees in a small group setting. Our education and training classes are applicable for all who are involved with the design, maintenance, and/or installation of Liquid or Gas Handling Systems, Remediation Systems and/or SCADA and Data Acquisition Systems.

EPG's on-site classroom includes live control panels allowing students to get hands-on experience programming level and flow meters, component installation, and system troubleshooting. In addition, each student has the opportunity to tear down and rebuild an EPG SurePump, providing invaluable knowledge for use in the field. We believe EPG's Service School offers a unique learning environment, unmatched in our industry.

The following topics are covered in both comprehensive classroom and hands-on settings:

- Use of Test Meters
- Motor & Electricity Basics
- Level & Flow Meters
- Pump Basics
- Pump Controllers
- Control Panels
- Installation & Start-Up
- Operations & Maintenance
- Grounding
- Safety Issues
- Telemetry
- Arc Flash/SCCR/PPE
- Flare Maintenance
- Pneumatic Pump Assembly, Disassembly, and Setting
- Demo of Pneumatic Pump Operation with Gas Effect
- Landfill Gas

### Download the 2015 Service School Registration Form

Pumps & Controls Class (24 spaces) April 13-15, 2015

Advanced Class (12 spaces) April 15-17, 2015

\* Receive up to 10 Continuing Education Units through SWANA (Solid Waste Association of North America)

## Upcoming Events

EPG will have representation at the following SWANA and industry related events:

2015 Stay tuned for upcoming conference and trade show announcements.

April 13-17 **EPG Service School**  
Maple Grove, MN
