Viridian America VP4 Pump - Now Only \$1735.00*

Viridian America's line of pneumatic pumps are the choice of many landfill managers and operators for vertical pumping applications. Their rugged, corrosion resistant design is ideal for pumping highly corrosive leachate even at elevated temperatures. In addition, they are fully automatic, self-regulating and require no external form of control. The Viridian America pneumatic pump is the most durable pneumatic pump available on the market today.

Typical applications include:

- Vertical extraction wells
- Landfill gas extraction wells
- Condensate sumps
- Recovery wells at remediation sites

The VP4-BL is perfect for typical liquid removal applications.

The VP4-TL is suitable for retrieval of LNAPL (Light Non-aqueous Phase Liquid).

The I-Fit Connection Kit allows use of the I-Fit connectors on the 3" VP3-BL.

Education & Training - EPG Service School

For 18 years, EPG has served over 500 attendees in a small group setting. Our education and training classes are applicable for all who are involved with the design, maintenance, and/or installation of Liquid or Gas Handling Systems, Remediation Systems and/or SCADA and Data Acquisition Systems.

EPG's on-site classroom includes live control panels allowing students to get hands-on experience programming level and flow meters, component installation, and system troubleshooting. In addition, each student has the opportunity to tear down and rebuild an EPG SurePump, providing invaluable knowledge for use in the field. We believe EPG's Service School offers a unique learning environment, unmatched in our industry.

The following topics are covered in both comprehensive classroom and hands-on settings:

- Use of Test Meters
- Motor & Electricity Basics
- Level & Flow Meters
- Pump Basics
- Pump Controllers
- Control Panels
- Installation & Start-Up
- Operations & Maintenance
- Grounding
- Safety Issues
- Telemetry
- Arc Flash/SCCR/PPE
- Flare Maintenance
- Pneumatic Pump Assembly, Disassembly, and Setting
- Demo of Pneumatic Pump Operation with Gas Effect
- Landfill Gas
