EPG Companies Inc. specializes in the design and manufacture of landfill leachate pumps & controls, sump drainers, pneumatic pumps, remediation equipment, telemetry hardware and SCADA systems, biogas flares, odor & gas control, and other environmental and industrial products.

Dear Mike,

Thanks to everyone who stopped by the **EPG** and **Viridian America** booths at the SWANAPalooza event in New Orleans. Special thanks to Roger Dixon and Phil Dabner of **Viridian Systems** and John Sullivan of **Sullivan Environmental** for their **participation**.

In this issue of the EPG Connection Newsletter:

EPG Partner News - St. Croix Sensory manufactures and markets state-of-the-art odor sampling and measurement equipment. For over 35 years they have been assisting clients face challenges posed by environmental odors in their communities. We want to let you know that in April St. Croix Sensory is presenting their "ODOR SCHOOL"® - Odor Management Workshop in two locations in Southern California. See below for details.

EPG Setting the Standard for Pumps & Controls - Often Imitated, Never Equaled.

EPG will be attending several events over the next several months. We will update the **schedule** below in each newsletter.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.

Sincerely,
EPG Companies Inc.

St. Croix Sensory, Inc. - "Odor School"® April 2015 (Southern California)

St. Croix Sensory manufactures and markets state-of-the-art odor sampling and measurement equipment. These products set the standard in the sensory testing industry.

St. Croix Sensory also provides training programs to meet your company goals in advancing your knowledge of sensory science. In April St. Croix Sensory is presenting their "ODOR SCHOOL"® Odor Management Workshop in two locations in Southern California.

Tuesday, April 21, 2015
9AM-4:30PM
DoubleTree Hotel - Irvine Spectrum
90 Pacifica
Irvine, CA

Thursday, April 23, 2015
9AM-4:30PM
Westin Pasadena
191 North Los Robles Ave.
Pasadena, CA

This 1-day Odor Management Workshop covers timely topics, such as:

- Odor Policies-Strategies
- Community Relationships
- Odor Data Collection
- Chemistry Beyond Odor
- Odor Measurements
- Knowing Your Nose and more.

Register by April 10th and use the coupon code **NasalRanger15** at checkout to receive a \$50 discount off the \$375 workshop fee. Please forward this information to any of your colleagues that you feel could also benefit from this Odor Management Workshop.

Find workshop details and online registration at: www.fivesenses.com/odorworkshop

If you have any questions about this workshop or St. Croix Sensory, please contact me at mike@fivesenses.com or 651-439-0177 ext. 16.

Visit **St. Croix Sensory's** website to learn more about them.

EPG - Setting the Standard for Pumps & Controls

EPG has worked diligently for many years to establish "best practices" with research, development, experience, and innovation. We take pride in our good reputation within the industry and being recognized in this manner. It's no accident that a large number of landfill projects today call for "EPG or equivalent" in the specifications.

Naturally, we question the notion that there is an equivalent to EPG's equipment. The quality, reliability and longevity of EPG products is proven and not only stand on their own merits, but in comparison to numerous imitators and inferior designs.

Here are Ten Questions everyone should ask when working on a project that specifies "EPG or Equivalent" equipment.

1. Is the pump specifically designed, patented and constructed for solid waste landfills or is it simply a standard water well pump?
2. Is the pump equipped with E-glide bearings and seal rings, which have been proven to outlast Teflon found in competitors pumps?
3. Considering the bearings & seals, is the pump designed to withstand horizontal operation? Often times, standard water well pumps intended for vertical applications are used.
4. Is the pump/motor encased in a stainless steel housing designed to force liquid over the motor from the bottom inlet screen?
5. Does the pump feature a no-splice motor lead with chemical resistant jacket and waterproof fluid block at motor?
6. Does the pump incorporate wheels at top & bottom for ease of installation and removal?
7. Is the level sensor mounted directly on bottom center to insure accurate level reading and easy removal?
8. Does the manufacturer hold UL file numbers and subjected to regular UL inspection for compliance to UL 508A/698A and other standards requirements?
9. Are all control panels Arc Flash rated & labeled including SCCR labels for OSHA compliance?
10. Are fuses used to provide Type 2 Coordinated Protection to protect personnel and equipment with SCCR rating of 30kA?

EPG understands that our customer's ultimate goal is to get maximum value without compromising performance. This is a philosophy we believe in as well, and it drives us to provide the best equipment and service in the industry.

Consult with an Applications Specialist at **1-800-443-7426** or email us at info1@epgco.com for more information.

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

April 13-17 **EPG Service School**

Maple Grove, MN

April 15-18 **TxSWANA Conference**

El Paso, TX (Reich Co. Exhibiting)

April 21-23 **ISA - Instrumentation Systems and Automations Show**

Calgary, AB Canada (Zirco Exhibiting)

April 28-30 **WBPC - 2015 Williston Basin Petroleum Conference**

Regina, SK Canada (Zirco Exhibiting)

May 3-6 **New York Federation of Solid Waste Show**

Bolton Landing - Lake George, NY (EPG and Lee Supply Exhibiting)

May 5-7 **MsSWANA - Magnolis Chapter**

(Reich Co. Exhibiting)

June 9-11 **Global Petroleum Show**

Calgary, AB Canada (Zirco Exhibiting)
