EPG News & Updates

In this edition of the EPG Connection newsletter we are highlighting EPG's full line of Flares for Odor Control & Fugitive Gas and previewing our presence at the 2016 SWANA Landfill Gas & Biogas Symposium!

EPG's Service School preparation is ramping up. Looking forward to seeing everyone, sharing knowledge, experience, and best practices to improve your operations and maintenance programs at your site.

SWANA Landfill Gas Symposium April 4-7, 2016

EPG Companies Inc. will be exhibiting at SWANA's 2016 Landfill Gas Symposium in Charleston, SC April 4-7.

EPG Applications Specialists will be on-hand to listen, offer guidance, and answer questions about your current and upcoming applications & installations as well as provide insight regarding our leachate pumps & controls, accessories, biogas flares, and odor & gas control. You can find EPG Companies Inc. at booth #303.

Viridian America will also be exhibiting (booth #305) and sharing info about the reliable and economical line-up of VP Series environmental pneumatic pumps. Stop and say hello!

Visit SWANA's [LFG Symposium website](#) to learn more.

LTL Biogas Flares

LTL Biogas Flares are widely used for odor and emission control when vacuum assist is required, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells.

These units are ruggedly constructed for long life and feature solar-powered continuous ignition with very low maintenance requirements. Skid and trailer mounting options are available to adapt to any situation.

Standard Flare Features:

- Easy Assembly and Maintenance with Rotating Column Design
- Solar or Line Powered Electronic Ignition - LPG Flame Pilot Also Available
- 5-750 SCFM Biogas Combustion Capacities
- Excellent Combustion Efficiency
- High Temperature Thermocouple with Programmable Data Logger
- Low Pressure, Easy Cleaning Flame Arrester Constructed with Aluminum Body and 304 Stainless Steel Internals
- Carbon Steel Riser Pipe
- Hot Dip Galvanized
- Skid Mounted; Easily Portable
- Complies with 40 CFR 60.18

Solar Spark® Passive Vent Flares

Solar Spark® Vent Flares are widely used for odor and emission control at passive outlets, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells.

Solar Spark® Vent Flares are typically used on landfill gas vents, wells, or leachate system cleanout lines to combust flammable gases. Solar Spark® Vent Flares combust flammable gases at low ambient pressure without the need for blowers or external power.

Standard Features Include:

- All Weather Stainless Steel Spark-Pilot
- Solar-Powered Continuous Ignition System, 6-Volt Or 12-Volt
- Stainless Steel Ball Valve
- Inline Flame Arrester
- 2-90 SCFM or 5-140 SCFM Flow Rates

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

April 4-7	SWANA's Landfill Gas & Biogas Symposium 2016 <i>Charleston, SC (EPG & Viridian America Exhibiting)</i>
April 11-15	EPG Service School <i>Maple Grove, MN</i>
April 11-13	TxSWANA Annual Conference <i>(The Reich Co. Exhibiting & Presenting)</i>
May 11-13	Northern Lights Chapter 2016 Conference <i>(Zirco Exhibiting - EPG Presenting)</i>
May 15-18	New York Federation of Solid Waste Show <i>Bolton Landing - Lake George, NY (EPG and Lee Supply Exhibiting)</i>
May 17-19	Mississippi Magnolia Spring Conference <i>Biloxi, MS (The Reich Co. - EPG Presenting)</i>
August 22-25	SWANA's WASTECON 2016 <i>Indianapolis, IN (EPG & Viridian America Exhibiting)</i>

EPG Companies Inc. specializes in the design and manufacture of landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware and SCADA systems, Odor & Gas Control, and other environmental and industrial products.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.
