The Truth About Sump Drainer Wheels

2017 Service School Review

Thanks to everyone who visited with us at the **2017 SWANA Landfill Gas & Biogas Symposium!** We look forward to meeting more of you at upcoming shows.

Thanks for reading and have a great day!

Keeping You Informed

The TRUTH About Sump Drainer Wheels

For the last 33 years, EPG Companies products have been synonymous with superior quality and reliability. This has been the direct result of our commitment to customer satisfaction and our culture of ongoing evaluation, research and further development.

Over ten thousand EPG patented and market leading SurePumps™ have been installed in more than 20 countries across the world. The wheels on the EPG SurePump™ set our product apart from all other sump drainers, not only allowing for easier installation, but also ensure that the screen/inlet is not resting in sludge, resulting in improved cooling, higher efficiency, performance and ultimately longer product lifespan over any other sump drainers on the market.

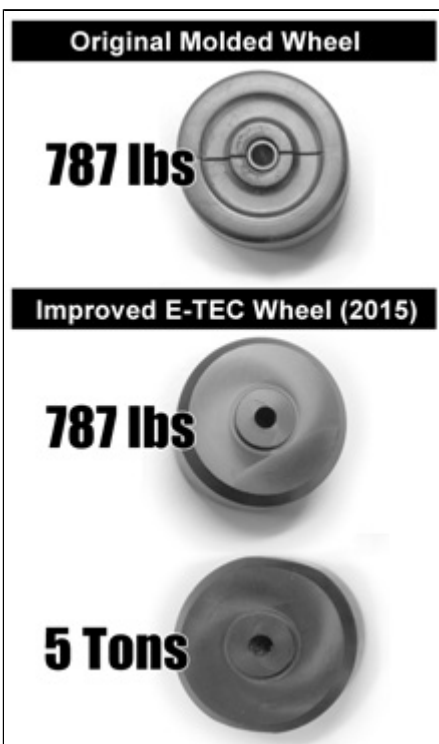

Note: Nearly 80,000 original wheels have been put in service over the past 33 years with a proven reliability rate over 99%.

Our new and improved E-TEC wheels, developed by and exclusive to EPG, are precision machined using stress relieved material offering improved chemical, weather, and shock resistance. They are able to withstand 5 tons of pressure with very little noticeable effect, only showing signs of deformation or cracks at nearly twice that amount.

The wheels suspend the sump drainer above the bottom of the sump or riser pipe to:

- Improve cooling flow of liquid.
- Keep screen/inlet from resting in sludge.
- Reduce shock during installation or removal, protecting fragile level instrumentation.

EPG would like to thank all our satisfied customers for their commitment. We are at your service!

Test results of original molded wheels and improved next generation E-TEC wheels.

EPG SurePump Key Features

News

2017 Service School Review

We'd like to extend a huge thank you to everyone who attended EPG's 2017 Service School event earlier this April. The fine states of Kansas, Texas, Virginia, Missouri, Pennsylvania, Massachusetts, North Carolina, North Dakota, Ohio, Illinois, Indiana, Maryland, Iowa, Wisconsin, and Minnesota were all represented. We enjoyed having you all and hope to see more new faces next year!

2017 Service School - Pumps & Controls

Products

The Viridian America VP Series Pneumatic Pump is available in 2", 3", and 4" models. They are perfectly suited for pumping harsh landfill leachate and gas condensate, and are even more at home for use in groundwater and remediation pumping applications.

If you're in the market for a reliable, affordable pneumatic pump solution, think Viridian America!

Need a quote or have questions? Please call us at **800-443-7426** or email us at info@epgco.com.

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

2017 Conferences & Tradeshows

- | | |
|------------|---|
| May 16-18 | The Magnolia Chapter SWANA 2017 Spring Conf.
<i>Biloxi, MS (The Reich Co. Exhibiting)</i> |
| May 17-19 | Northern Lights Chapter 2017 Conference
<i>(Zirco Exhibiting - EPG Presenting)</i> |
| May 21-24 | New York Federation of Solid Waste Show
<i>Bolton Landing - Lake George, NY (EPG and Lee Supply Exhibiting)</i> |
| Sept 25-27 | WASTECON
<i>Baltimore, MD (EPG/Viridian America Exhibiting)</i> |

EPG Companies Inc. specializes in the design and manufacture of landfill leachate pumps & controls, sump drainers, remediation equipment, telemetry hardware and SCADA systems, Odor & Gas Control, and other environmental and industrial products.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info1@epgco.com.
