Conference Schedule

EPG Companies Inc. and our partners will be exhibiting and presenting at several industry trade shows and conferences throughout 2017. Representatives will be on-hand for questions and offer product and design solutions for your landfill, environmental, and groundwater applications. Learn about EPG Landfill Pumps & Controls, Viridian America Pneumatic Pumps, LTL Biogas and Solar-Spark flares, EPG Remediation Equipment, and more.

Thanks for reading and have a great day!

Reminder!

EPG's 2017 Service School is scheduled for April 3-6, 2017

EPG Service School is now ONE comprehensive class over 4 days. Join experienced EPG staff as we progress from basic electrical and pump concepts to advanced techniques for troubleshooting and maintenance of complete pumps & controls systems.

Classes are conducted at EPG's manufacturing facility in Maple Grove, MN and include classroom discussion, presentations, hands-on training, networking opportunities, meals, lodging (4-nights included in the registration fee), applicable test equipment, instruction manuals, and 20 SWANA CEUs.

Education & Training - EPG Service School

For 20 years, EPG has served over 500 attendees in a small group setting. Our education and training classes are applicable for all who are involved with the design, maintenance, and/or installation of Liquid or Gas Handling Systems, Remediation Systems and/or SCADA and Data Acquisition Systems.

EPG's on-site classroom includes live control panels allowing students to get hands-on experience programming level and flow meters, component installation, and system troubleshooting. In addition, each student has the opportunity to tear down and rebuild an EPG SurePump, providing invaluable knowledge for use in the field. We believe EPG's Service School offers a unique learning environment, unmatched in our industry.

The following topics are covered during both comprehensive classroom and hands-on settings:

- Use of Test Meters
- Motor & Electricity Basics
- Level & Flow Meters
- Pump Basics
- Pump Controllers
- Control Panels
- Installation & Start-Up
- Operations & Maintenance
- Grounding
- Safety Issues
- Telemetry
- Arc Flash/SCCR/PPE
- Flare Maintenance
- Pneumatic Pumps
- Landfill Gas
