

In this edition of the **EPG Connection** newsletter:

Remediation Solutions

EPG's remediation systems are economical, mobile, and customized to your specific application. Today we highlight those systems and the industry leading components that help make those systems reliable and effective.

Thanks for reading and have a great day!

Remediation Solutions

EPG manufactures custom engineered, field-tested, cost-effective solutions to environmental pollution problems both large and small using some of the most trusted brands in the industry.

You can leverage EPG's buying power when in the market for your next vacuum pump, blower, filter, compressor and more. We offer competitive prices, experience, and technical knowledge and support only EPG can provide.

Air Strippers

EPG offers low-profile tray air strippers for removal of volatile organic compounds (VOCs) from liquids.

They are used effectively for treatment of contaminated groundwater and process water.

[Learn More](#)

SVE Blowers

Soil Vapor Extraction, the removal of volatile organic compounds (VOCs) from soil using vacuum, has proven to be a highly efficient and cost-effective method of in-situ soil remediation.

[Learn More](#)

Condensate Filter Separators

The CS Series Condensate Separator is designed for removal of both particulates and liquid droplets from air streams. The unique up-flow design passes the air stream through a mixed media coalescer filter element which coalesces fine liquid vapor into larger droplets which, by gravity, drop to the bottom of the sump. This design extends the life of the filter.

[Learn More](#)

Air Sparge Equipment

Air sparging is often used in conjunction with vapor extraction for in-situ soil remediation. This process involves injecting pressurized air into the water table in order to strip volatile organic compounds (VOCs) by mass transfer.

Oil/Water Separators

The OS Series Oil/Water Separators are designed to produce an effluent concentration of 10 mg/l or less of oil droplets 30 micron and larger of non-emulsified, free and dispersed oils. The FLOPAK coalescing media allows readily settleable solids to be removed.

Trailer/Container Systems

EPG's Portable Remediation Trailers are so convenient! You can drive it in, hook it up, and be up and running the very same day. That's one of the advantages of using an EPG custom-built, trailer-mounted mobile remediation system. They're start-up ready! That means your mechanical and electrical installation time and costs are minimal and when the site is cleaned up, they can easily be moved to the next location, ready for power supply hook-up and connection to process piping.

These same solutions can be placed inside shipping containers for equally flexible, long term installations.

"Our remediation trailers give you superior soil and groundwater clean up wherever you want and when you want, while being a safe, completely enclosed system." - Jim Bailey, EPG Applications Specialist

Rental Units

EPG also rents several remediation solutions!

- Thermal Oxidizers
- Blowers
- Portable SVE (Soil Vapor Extractors)
- Air Sparge Compressors

These units are perfect for temporary, short term installations and pilot studies.

If you have any questions about the products and solutions listed above, please call EPG at 1-800-443-7426.

Upcoming Events

EPG will have representation at the following SWANA and industry related events:

- | | |
|-----------|---|
| Aug 22-25 | WASTECON Nashville, TN (EPG/Viridian America Exhibiting) |
| Sep 25-26 | New Mexico Solid Waste & Recycling Conf. Albuquerque, NM (The Reich Co. Exhibiting) |
| Oct 2-4 | Kansas SWANA Solid Waste Mgmt Conf. Mulvane, KS (The Reich Co. Exhibiting) |
| Oct 21-23 | Tennessee TCAPWA & SWANA Annual Conf. Nashville, TN (The Reich Co. Exhibiting) |

EPG Companies Inc. specializes in the design and manufacture of landfill leachate pumps & controls, sump drainers, pneumatic pumps, remediation equipment, flares for odor & gas control, telemetry hardware and SCADA systems, and other environmental and industrial products.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info@epgco.com.
