Solar Powered Pumps

Progressive Cavity Pumps (helical rotor pumps) are well known for their ability to pump viscous, abrasive, and water-like materials, and low maintenance requirements & reliability. Solar power gives you more flexibility regarding where you can install a pump.

The LORENTZ leachate pump design, now available from EPG, brings this technology to landfill and remediation applications in which operating environments are challenging or access to grid power is impractical.

Key benefits:

- The self-cleaning helical rotor pump minimize down time and the need for service
- Pumping of viscous material in challenging environments
- Remote management and control enabled

Ideal for:

- Pumping of viscous material
- Remote or closed sites without utilities
- "Green" deployments
- Dewatering seeps
- Low flow rate applications

Partner Profile

Diamond Scientific is a verified VA-VOSB, HUBZONE Certified, DOT-DBE Company providing; EPG pumps, controls, and solar spark flares, and other environmental solutions. Working with engineering companies, landfill operators, biogas, waste water, and remediation companies.

Diamond is constantly seeking opportunities and products that will contribute to a better world. By providing equipment that will offer environmental benefits, as well as cost benefits to those pursuing alternative energy solutions, we help clients lessen the impact of costs, while maximizing energy production, and protecting our environment and climate.

"Protecting people, animals, plants, and minerals by offering solutions to reverse global warming."

Diamond Scientific has published numerous blog articles about landfills, pumps and more. Read them [here](#).

Upcoming Events

SWANA Florida 2018 Summer Conference - July 15-17, 2018

EPG Companies Inc. will be represented by Diamond Scientific in the exhibit hall at the SWANA Florida 2018 Summer Conference!

This years conference is being hosted by the PGA National Resort, Palm Beach Gardens, Florida. It's a multi-day conference which includes general sessions on best practices in the solid waste management profession, an exhibit hall, committee meetings, a golf tournament, a technical tour and more.

Visit the SWANA Florida [website](#) to learn more.

Follow us on [twitter](#)

EPG will have representation at the following SWANA and industry related events:

| | |
|------------|---|
| July 15-17 | Missouri Waste Control Coalition (MWCC) <i>Lake Ozark, MO (The Reich Co. Exhibiting)</i> |
| July 15-17 | 2018 Florida Summer Conference <i>Palm Beach Gardens, FL (Diamond Scientific Exhibiting)</i> |
| Aug 22-25 | WASTECON <i>Nashville, TN (EPG/Viridian America Exhibiting)</i> |
| Sep 25-26 | New Mexico Solid Waste & Recycling Conf. <i>Albuquerque, NM (The Reich Co. Exhibiting)</i> |
| Oct 2-4 | Kansas SWANA Solid Waste Mgmt Conf. <i>Mulvane, KS (The Reich Co. Exhibiting)</i> |
| Oct 21-23 | Tennessee TCAPWA & SWANA Annual Conf. <i>Nashville, TN (The Reich Co. Exhibiting)</i> |

EPG Companies Inc. specializes in the design and manufacture of landfill leachate pumps & controls, sump drainers, pneumatic pumps, remediation equipment, flares for odor & gas control, telemetry hardware and SCADA systems, and other environmental and industrial products.

As always, EPG welcomes your feedback. If you have any comments or questions, feel free to contact us at info@epgco.com.
