

## EPG On-Demand Webinars

### This Month's On-Demand Webinar

Topic: [Control Panels](#)

Length: [15:22](#)

In this webinar we highlight our **UL Listed Control Panels**. Find out what makes them the best and safest made panels in the industry and what you can expect your pre-sale experience to be like. We finish up with your post-sale experience and the warranty.

## Product Highlight

### A Tale of 2 Pumps (and Their Controls)

Over the years, EPG has designed and manufactured pump and controls systems to meet a wide variety of application demands from the most basic shroud-less pump squeezed into a small de-watering well pipe to monster submersible pumps moving hundreds of gallons per minute over hundreds of feet.

Let's take a look at two very different 2-stage **SurePumps™**.

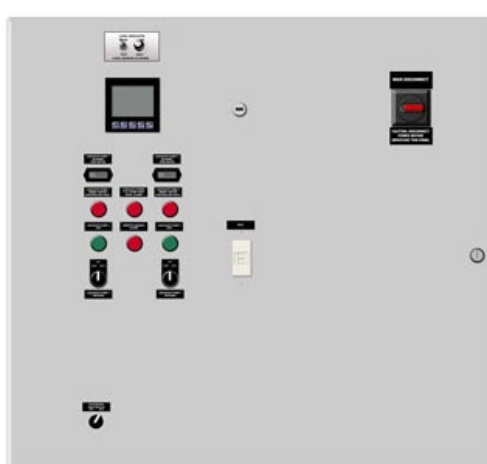

This first, larger 2-stage pump & control panel, is part of a multi-cell landfill leachate management system. It's paired with a custom guide rail disconnect and complete accessories package including breakout junction boxes, flow meter and pressure gauge. The UL listed control panel accommodates two of these pumps in lead/lag alternating mode ensuring reliable performance and longevity.

#### VSDPT 95-2

- Vertical Sump Drainer
- Integrated Level Sensor
- 2-Stage Pump End
- 20HP 460V 3 Phase Motor
- 150' Lead Lengths
- +450GPM @ 150' TDH
- Size 12 (12") Sump Drainer
- 86" Long, 400 lbs.
- Custom 6" Flanged Discharge

#### YCL950PT

- Enclosure: 36"x36" NEMA 4X SS
- Operates: Two 20HP Pumps in Lead/Lag Alternating Mode
- Voltage: 460V 3 Phase
- Controller: OCS (Operator Control Station)
- Features Include:
  - Elapsed Time Meters
  - Level Selector Switch
  - Sump High Level Alarm Light
  - Data Logging w/USB Port
  - Level Simulator
  - GFCI

This second and smaller 2-stage pump & control panel is very typical of the industry standard EPG has established for landfill side-slope riser applications. Like the system above, it also incorporates breakout junction boxes to help isolate expensive equipment from corrosive landfill gas and assist in maintenance.

#### WSDPT 2-2

- Wheeled Sump Drainer
- Integrated Level Sensor
- 2-Stage Pump End
- 1/2HP 230V 1 Phase Motor
- 40' Lead Lengths
- 14GPM @ 40' TDH
- Size 4 (4") Sump Drainer
- 30" Long, 66 lbs.

#### L925PT

- Enclosure: 24"x24" NEMA 4
- Operates: One 1/2HP Pump
- Voltage: 230V 1 Phase
- Controller: Level Master
- Features Include:
  - Tank High Level Alarm
  - Level Simulator
  - GFCI

Both systems represent proven engineering design and reliability. Whatever demands your system dictates, there's an EPG Pump & Control to face them.

Contact EPG to discuss why **SurePump™** pumps and **PumpMaster™** controls should be your choice now and in the future. 1-800-443-7426 | [info@epgco.com](mailto:info@epgco.com)

### EPG Serves the Municipal Water Industry

Master Level Controls Co., now a division of EPG, has been providing integrated level controls for Municipal Water Systems since 1948.

For lift station, water tower/elevated tank controls, be sure to visit [www.masterlevel.com](http://www.masterlevel.com) to learn more.

Questions? Call MLC at 1-800-652-8020 for more information.

## Industry Events

*This list of events is updated each month. This year has seen several postponements and cancellations due to the pandemic. We will do our best to keep the list accurate when published.*

#### Sep 1-3 Arkansas SWANA Conference

Springdale, AR (The Reich Co. Exhibiting)

-

#### Sep 16-18 LSWA Conference

Lafayette, LA (The Reich Co. Exhibiting)

-

#### Oct 13-15 NW Symposium

Tulalip, WA (EPG / ESS Exhibiting)

-

#### Nov 2-4 Colorado SWANA Conference

Boulder, CO (The Reich Co. Exhibiting)

-

#### Dec 7-10 2020 WASTECON

Dallas, TX (EPG / Viridian America Exhibiting)
