Landfill Gas Solutions

EPG On-Demand Webinars

This Months On-Demand Webinar #1

Topic: [Flares](#)

Length: [9:51](#)

In this video we discuss the source of landfill gas and why flares might be the right solution to manage it. You'll learn how our SolarSpark & LTL Biogas flares might be suitable for your application.

This Months On-Demand Webinar #2

Topic: [Skid Mounted Flare Assembly](#)

Length: [12:15](#)

This video covers the 28 easy-to-follow steps to skid mounted flare assembly. We discuss & guide you through the instructions to assemble a skid mounted solar flare from EPG.

EPG Product Highlight

Flares for Odor Control & Fugitive Gas

Solar Spark® Passive Vent Flares

Solar Spark® Vent Flares are widely used for odor and emission control at passive outlets, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells.

Solar Spark® Vent Flares are typically used on landfill gas vents, wells, or leachate system cleanout lines to combust flammable gases. Solar Spark® Vent Flares combust flammable gases at low ambient pressure without the need for blowers or external power.

Standard Flare Features:

- All Weather Stainless Steel Spark-Pilot
- Solar-Powered Continuous Ignition System, 6-Volt Or 12-Volt
- Stainless Steel Ball Valve
- Inline Flame Arrester
- 2-90 SCFM or 5-140 SCFM Flow Rates

LTL Biogas Flares

LTL Biogas Flares are widely used for odor and emission control when vacuum assist is required, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells.

These units are ruggedly constructed for long life and feature solar-powered continuous ignition with very low maintenance requirements. Skid and trailer mounting options are available to adapt to any situation.

Standard Flare Features:

- Easy Assembly and Maintenance with Pivoting Column Design
- Solar or Line Powered Electronic Ignition - LPG Flame Pilot Also Available
- 5-750 SCFM Biogas Combustion Capacities
- Excellent Combustion Efficiency
- High Temperature Thermocouple with Programmable Data Logger
- Low Pressure, Easy Cleaning Flame Arrester Constructed with Aluminum Body and 304 Stainless Steel Internals
- Carbon Steel Riser Pipe
- Hot Dip Galvanized
- Skid or Trailer Mounted; Easily Portable
- Complies with 40 CFR 60.18

EPG Serves the Municipal Water Industry

Master Level Controls Co., now a division of EPG, has been providing integrated level controls for Municipal Water Systems since 1948.

For lift station, water tower/elevated tank controls, be sure to visit www.masterlevel.com to learn more.

Questions? Call MLC at 1-800-652-8020 for more information.

Industry Events

This list of events is updated each month. This year has seen several postponements and cancellations due to the pandemic. We will do our best to keep the list accurate when published.

Nov 2-4 Colorado SWANA Conference (Cancelled!!)

Boulder, CO (The Reich Co. Exhibiting)

Dec 7-10 2020 WASTECON (Cancelled!!)

Dallas, TX (EPG / Viridian America Exhibiting)
