

# The EPG Connection

Your Resource for Landfill, Environmental, and Industrial Solutions!

October 2021

Issue No. 135

In This Issue: Economical Landfill Gas Flares | ConferenceSchedule

## Flares for Odor Control and Excess Landfill Gas

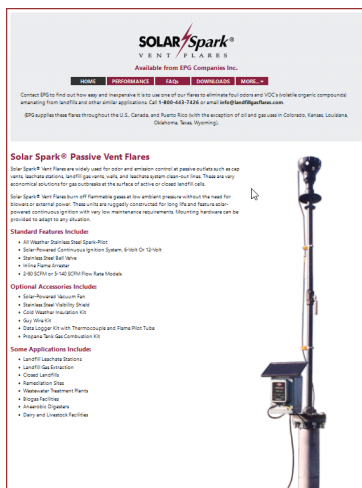

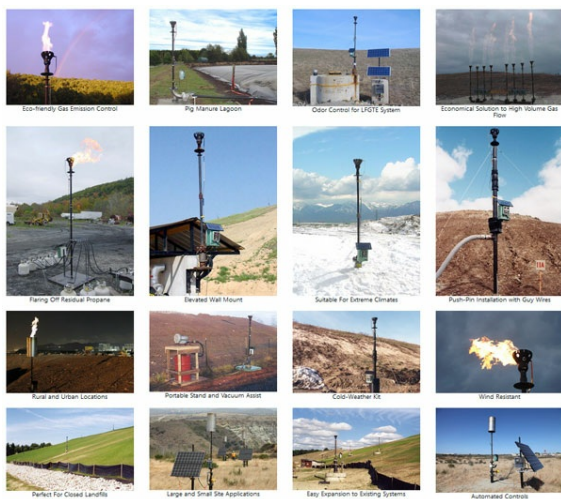

### Is This the Flare for you?

EPG is your source for Solar Spark® Vent Flares. These flares are widely used for odor and emission control at passive outlets such as cap vents, leachate stations, landfill gas vents, wells, and leachate system clean-out lines. Below are some common questions people often ask. The answers and more can be found at [www.landfillgasflares.com](http://www.landfillgasflares.com)

**Q) How do I know if I have enough gas for the flare to work?**

**Q) What if it is cloudy or dark for several days?**

**Q) Are these flares accepted by regulatory agencies?**
