Issue No. 144

In This Issue : For the Municipal Water Crowd

In observance of Independence Day, our office will be closed July 4th.

Master Level Controls Co.

Decades of Service to the Municipal Water Industry

In 2018, Master Level Controls Co. joined the EPG family of companies. MLC has been providing integrated level controls for Municipal Water Systems since 1948 and now has the support of EPG's experienced application & design engineers, production personnel and field service partners.

MLC UL Listed Control Panels are in use across industries such as Municipal Water Supply, Wastewater Treatment, Irrigation & Agriculture, and Commercial, Industrial & Environmental Processes.

For lift station, water tower, and other elevated tank controls, be sure to visit www.masterlevel.com to learn more.

Listed here are a few examples of typical tank types MLC has provided controls for.

Elevated Tank

An elevated water tank is a simple, proven way to store water and provide pressure in a water distribution system.

Water Tower

A tower supporting an elevated water tank, whose significant height creates the pressure required to distribute the water through a piped system.

Hydro-pneumatic Tank

Hydro-pneumatic tanks are vessels that hold water and air under pressure. In order to provide efficient water supply, the controls regulate tank pressure to quickly meet system demand.

Standpipe

A vertical storage tank extending from a water supply located on high ground where water is pumped to provide pressure and water storage.

Ground Reservoir (Ground Storage Tank)

Storage space for fluids. Usually around 20-30ft high and large in diameter.

And here are just a few examples of the control panels MLC has provided over the years. Master Level can employ technology to meet today's modern system requirements as well as replicate some of yesterdays' designs to support legacy systems still in operation.

For reliable, time-tested tank controls for your Municipal Water Systems, think Master Level Controls! www.masterlevel.com | 1-800-MLC-8020

Industry Events

This list includes EPG and Sales Representative events.
We will do our best to keep the list accurate when published.

July 10-12 Missouri Waste Control Coalition
Osage Beach, MO (The Reich Co. Exhibiting)

Aug 22-24 Wyoming SWANA & Recycling Conf.
Powell, WY (The Reich Co. Exhibiting)

Sept 20-23 Kansas SWANA Conference
Wichita, KS (The Reich Co. Exhibiting)
